**Dear Paul**

**I would like to thank you and your two assistants for a very efficient lift out and two coat antifoul on my First 47.7 . The work was done extremely well, the best antifoul I have had in 25 years and all finished between 09:00 and 17:00. It would help customers to have access to water and 220 volt electricity so that they can do some other work during the day. Would you please book me in for 2011 on Monday 25<sup>th</sup> April for the same again. Many thanks**

**Ralph Denne**
