**Subject:** Re: SEALIFT2 EXTENDS VAT OFFER ON ALL SINGLE SERVICES TAKEN IN FEBRUARY 2011

Hi Paul,

Thanks for your email.

I would just like to say again how pleased I was with your service, it's a refreshing change to get a service that exceeds your expectations (not often the case these days) .

As an alternative to traditional lift out the Sealift 2 was a cost effective , efficient and reliable means of doing the job. On top of that you and your staff provided tools and labour (beyond the call of duty) for changing the anode and touching up the antifouling.

I would (and have already) recommend you to everyone.

Many thanks

Roger
